

AWARD-WINNING KITCHEN

"It's really no wonder this exquisite kitchen received numerous awards at this year's NZ Master Joiner Awards, including the Supreme award. Both functional and aesthetically pleasing, the space has been designed to suit the lifestyle of the homeowners perfectly. The curved corners featured throughout this kitchen give it a softer edge, while still presenting a very contemporary look. The kitchen has presented many opportunities to showcase the joiner's skill and attention to detail, as evidenced by the full lengths of solid oak that curve around the island's radius corners, the drawer fronts that wrap around the edge of the cabinets, the complex Corian and stainless-steel tops, the oak shelving and the slatted screen and walls. The intricate detailing in all of the aforementioned features adds pizzazz to the space. The end result is a kitchen that is truly stunning and functional, and showcases high-quality craftsmanship."

Designer Melanie Craig Design for Firman Joinery

EXPERT TIP

Working curved corners into your design will give your space a softer edge.

We love the unique island benchtop.
