

NEW HOME
OVER \$2 MILLION BUILD

The next level

QUEENSTOWN

Spell-binding views of Lake Wakatipu are enhanced only by the unparalleled design and exquisite craftsmanship of this Queenstown Hill residence.

Lavishly clad in cedar, local schist and blue stone paving, this home blends the perfect harmony of natural materials in traditional and dramatic ways, creating an overwhelming sense of quality and elegance in every detail.

Indoor and outdoor living spaces blend harmoniously into the scenery with spacious glazed corridors, hidden courtyards and a breathtaking family room that effortlessly flows to the bespoke outdoor entertaining area.

Dark oak joinery and honed basalt tops adorn the dramatic kitchen, which sits at the heart of the home, capturing the expansive and stunning panoramic views.

“The attention and artistry of this home represent the very best, the next level, in design and meticulous construction”

NEW HOME
OVER \$2 MILLION

Peak of perfection

DALEFIELD

This exceptional location has been respected with a home that eases gently into its site. The design celebrates the majestic southern views, which take in both Coronet Peak and the Remarkables.

As well as a million-dollar outlook, bespoke details afford the owners all manner of luxuries. With 500sqm to play with, the architects have accounted for every comfort and the builders have expertly carried out the design.

Two double-height pavilions straddle the central living domain and alfresco living areas dot the site. Inside, scale is compressed and expanded to create contrast according to the space. For example, the kitchen ceiling soars with exposed rafters, whereas a lounge is nestled beneath a low ceiling for a snug feel. All areas in this tranquil setting are blessed with natural light, views and outlook.

With five bedrooms, five bathrooms, open-plan living and outdoor spaces, this is truly an entertainer's paradise.

“Custom details seal the deal for luxurious living in this tranquil home blessed with light and outstanding views”
